DETAILED ACTION

Response to Amendment

This Office Action has been issued in response to amendment filed 4 June 2007. Applicant's arguments have been carefully and fully considered and are persuasive.

Claim Status

Claims 1, 3, 5-11, 13, 15-21, and 23-24 remain pending and are ready for examination.

Allowable Subject Matter

Claims 1, 3, 5-11, 13, 15-21, and 23-24 are allowed.

The following is an Examiner's statement of reasons for allowance: the prior art made of record teaches a memory management method, but fails to teach the combination including the limitation of:

(Claim 1) "...determining a beginning page boundary of a first whole memory page within the block of memory; storing the frames beginning at the beginning page boundary; dividing each of the frames into a plurality of instances; with each of the plurality of instances operable to store an index node of the indexing structure, the index node including left and right pointers pointing to other index nodes of the index structure having the same attribute as the index node; storing administrative data in a cut-off portion of the block of memory disposed in front of the beginning page boundary or behind the (N-1)th frame ...";

(Claim 11) "...determine a beginning page boundary of a first whole memory page within the block of memory, store the frames beginning at the beginning page

boundary, and further to divide each frame into a plurality of instances, with each of the plurality of instances operable to store an index node of the indexing structure, the index node including left and right pointers pointing to other index nodes of the index structure having the same attribute as the index node, and store administrative data in a cut-off portion of the block of memory disposed in front of the beginning page boundary or behind the (N-1)th frame ...”;

As dependent claims **3, 5-10, 13, 15-21, and 23-24** depend from an allowable base claim; they are at least allowable for the same reasons as noted *supra*.

The prior art made of record neither anticipates nor renders obvious the above-recited combinations for at least the reasons specified and as shown in Applicant's Arguments filed 17 January 2007.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Response to Arguments

Applicant's arguments filed 4 June 2007 have been carefully and fully considered, and are persuasive. As noted *supra* the case is in condition for allowance.
